

... Leaders from around the globe are ‘awe struck’ at what appears to be the greatest opportunity in network marketing

Dear Friend:

Some opportunities knock ... but this one is breaking down your doors! A juice by the name of **Zrii** is about to revolutionize the network marketing industry as we know it ...

Now that's a **bold** promise for anyone to make, so let me explain. (And, by the way, I don't want to waste your time nor have you confusing this REAL OPPORTUNITY with the host of scam rubbish that show up in your email inbox every day.)

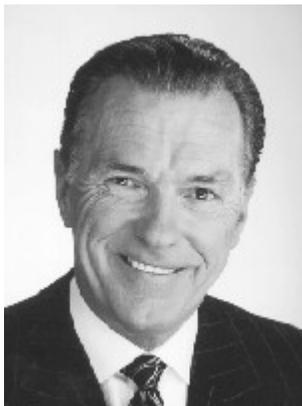

So I'll be feeding you with just the solid facts ...

A Rare Combination Spells Money In Your Pocket ...

I'm sure you've seen this before. A great product but a poorly managed or financed company and disaster is the result. Then ... there was solid capital backing, great management team but the product was of poor quality and the company soon goes belly up.

Like the lining up of the stars, some opportunities come only once in so many years. And if you spend a few minutes to evaluate Zrii I'm sure you'll agree that your financial stars are about to line up.

First, Zrii is backed by celebrity CEO William F. Farley, a self made business tycoon, and is endorsed by the **world famous Chopra Center for Wellbeing.**

President and CEO Bill Farley has a history of making companies the best they can be! From selling encyclopedias door-to-door, to a national sales trainer, to the world of finance and investment banking, to buying his first company, Anaheim Citrus Products in 1976 for \$50,000 ... Farley has seen success after success.

Under his leadership Fruit of the Loom sales grew from 500 million to 2.3 billion internationally. His family holding company, Farley Enterprises, has had annual revenues of near \$5 billion and over 65,000 employees worldwide.

He has been honored with the **Horatio Alger Award for Distinguished Americans** and the **White House award for Entrepreneurial Excellence.**

As a natural byproduct of his business success over the years, Bill has developed an extensive international network. He is a trusted friend and advisor to countless CEOs, celebrities, athletes, politicians, and leaders around the world.

Yet, Bill is often found mentoring people of little or no fame, who possess a strong desire to learn. His philanthropy in the field of education has blessed the lives of thousands.

So what is a guy like Bill Farley doing starting a network marketing company?

Bill Farley chose network marketing for all the same reasons you did...its unlimited potential for everyone!

His commitment is to make Zrii a household name and a global leader. Network marketing is the ONLY business model that allows you to personally leverage the experience of a man like Bill Farley to your financial advantage.

Bill Farley was asked why he was doing this so late in life? "Remember Babe Ruth," he responded, "how he pointed...Well, I'm pointing and I am going to this one out of the park!"

Think of the power of that statement! A man such as Bill Farley saying that he wants this to be the fastest growing company of all time! And he wants you to be at the beginning of it!

So what is the Chopra Center For Wellbeing?

Fulfilling a lifelong dream of creating a center which focuses on enhancing health and nourishing the human spirit, **Deepak Chopra, M.D.** and **David Simon M.D.** opened The Chopra Center For Wellbeing in 1996 in San Diego.

Since that time Deepak Chopra, David Simon, and the Chopra Center Staff call the San Diego Chopra Center home. Located in the midst of the world famous La Costa Resort & Spa, the Chopra Center is an ideal place to heal, recharge and re-connect with your soul.

The Chopra Center for Wellbeing brings together the talents of a number of professionals in the conventional, complementary, and alternative medicine fields.

This expert team creates an environment that embodies the essence of healing, and under Dr. Simon's direction, provides alternative medicine consultations, therapeutic body treatments, health workshops, meditation instruction, hospital program development, and corporate training courses.

The emphasis at the Center is on providing guidance to help individuals promote their own longevity, human potential and success, while increasing personal balance, happiness, and fulfillment.

In case you didn't know, Deepak Chopra is quite possibly the most well-known doctor on earth. **Author of 49 books and 12 New York Times bestsellers**, he has been seen countless times on television sharing his knowledge with the world on shows such as **Oprah, Larry King Live, and Today**.

His wisdom, found in his prolific writings and sold-out speeches, has had a profound impact on millions of people around the world. He was heralded by U.S. Presidents, international Heads of State, and many world leaders as one of the most influential people of our time.

Deepak continues to transform our understanding of the meaning of health.

Through his co-creation of **The Chopra Center for Wellbeing** with Dr. David Simon in California in 1996, he established a formal vehicle for the expansion of his healing approach using the integration of the best of western medicine with natural healing traditions, in both conventional and complementary healing arts.

His work is changing the way the world views physical, mental, emotional, spiritual and social wellness.

When you combine the experience, knowledge, public awareness of both Bill Farley and the Chopra Center, you'll have to be brain-dead not to pay attention. Combinations like these are just too sweet to pass up.

Amalaki, The World's Greatest Rejuvenator

In the hills of India are found a "Holy berry" used in the ancient Ayurvedic medicine for its **unbelievable rejuvenation properties**. Amalaki is a holy berry for very good reasons...for it boasts the most concentrated and bio-available source of Vitamin C in nature! Grown at elevations of nearly 5000 ft, this hearty berry is waiting to be discovered by the western world.

But in India, Amalaki is no secret; instead it is 'worshipped' for its unique healing powers. These healing properties make it vastly superior to all other fruits in the world. What's more, It has one of the richest histories and legacies of any fruit known today and is the cornerstone of Ayurvedic medicine.

Now keep in mind that Ayurvedic medicine is considered to be one of the oldest forms of medicine in the world. Written in the ancient language of the Sanskrit, Ayurveda contains the **oldest and some of the lengthiest medical texts in the world**. Its documents and records contain a plethora of knowledge and wisdom accumulated over 5,000 years!!

Modern herbology, detoxification, massage therapy, and even types of medical surgeries all find their roots in Ayurveda. In fact, Ayurvedic medicine is beginning to be recognized in the West as a sound method and practice for health and well-being.

(The Chopra Center happens to be a world-leader in Ayurveda ...but more on this later)

Considering that the ancient texts of Ayurveda describe over 5,000 herbs and fruits in great detail, you should pay close attention to the fact that amalaki is considered the most effective rejuvenator agent in the plant kingdom.

Its Healing Properties Are Unparalleled!

If you could choose just one fruit that you could eat to maintain good health and vitality, amalaki would be it.

Here are just a few Intriguing Facts about this miracle fruit:

1. Amalaki is highly regarded in Ayurveda for promoting **Ojas**- or the end product of digestion- which leads to radiant health, shining eyes, skin, and hair, and **youthful aging**.
2. Because of its rich heritage in the Indian culture, the **Amalaki tree is celebrated** every November on the day of the full moon, in accordance with the harvesting season. Folklore says that even sitting under an Amalaki tree will lead to greater vitality, strength, and overall health!
3. While these nutritional supplements are relatively new in the West, Amalaki has formed the foundation of Chavanprash, a paste-like supplement widely used in India over hundreds of years for **strengthening the immune system**.
4. Traditionally, Amalaki was fondly referred to as **Dharti**, meaning the "Nurse" because it nourishes so many aspects of human health.

Modern science is only recently coming to uncover the secret ingredients of this little green berry that packs such a powerful nutritional punch?

Research scientists tell us that this fruit contains a complete and balanced spectrum of Antioxidants, Phytonutrients, and Bioflavanoids. As mentioned before, you can't get a more concentrated source of vitamin C. By comparison, the amount of vitamin C in one gram of Amalaki is over 20X that of oranges. Talk about a superfood!

As far as antioxidants are concerned, just the vitamin C content alone would give a high antioxidant value to Amalaki, but it also contains one of the most powerful cellular antioxidants known to man...SuperOxide Dismutase.

Just a quick summary of the health benefits of amalaki would include:

- Promotes **cellular rejuvenation**, **energy** and **vitality**
- Possess **Anti-Aging** properties
- Enhances **Immune system**
- Improves metabolism
- **Destroys harmful free-radicals**
- **Anti-Inflammatory**
- **Improves digestion**
- Increases **nutrient absorption**
- Maintains **intestinal health**
- Promotes luster of skin and hair
- Helps promote a healthy liver
- **Promotes mild detoxification**

Anyone and everyone can benefit from the healing properties of this superfood and you can be a part in introducing this fruit to the West and reap a substantial financial reward in the process.

A Unique Drink Endorsed By The Chopra Center

It's a commonly known fact that it's critical for a network marketing company to have a unique product. Some of the more common juice companies like *Goji*, *Xango*, and *Noni* made their products from a unique and hard to find fruit. However, other companies created "knock off" products and so opened more competition for sales.

So having just an exotic and powerful fruit like Amalaki isn't enough. That's why Zrii offers something that no other company has—the name and credibility of a world renowned organization- The Chopra Center!!

Every bottle will have the Chopra Center stamp on it!

Do you realize the significance of this? How can any other company even come close to making a "knock off"? The best of the best that specializes in Ayurveda formulated the juice... **NO ONE CAN MATCH THAT!**

Think about it: What other company has a product that is backed by such a prestigious institute founded by some of the most respected and followed doctors of all time?

This is a unique occurrence in the in network marketing history.

Most companies would do ANYTHING to have such a prestigious association with their product. The Chopra Center has such a HUGE following and is so respected that its name gives immediate credibility to Zrii.

The names “Bill Farley” and “The Chopra Center” alone are enough to make Zrii a billion dollar company in just a few years. And that means EASIER MONEY FOR YOU!

The Formulation DreamTeam

In addition to the challenge of creating a potent synergistic blend, no other company has successfully used amalaki in a juice-based liquid delivery system. In order to accomplish this challenging task, Zrii assembled a formulation team that can truly be called ‘world-class’.

The team includes award-winning Western medical doctors, world-renown Ayurvedic physicians and scholars, and PhDs in chemistry and modern nutrition. These include:

- **Dr. Suhas Kshirsagar**- a world-renown physician and teacher of Ayurvedic medicine, who has taught in over 40 countries. Dr. Suhas was trained in the most authentic and ancient source of Ayurvedic medicine in India and is an expert in modern applications of the science. He was the former medical director of the Raj, the top-rated Ayurvedic retreat center in the U.S. and is currently an associate of the Kauai Center for Holistic Medicine and Research.
- **Dr. Thomas Yarema**- a leading medical doctor and award-winning author in the field of integrative medicine and biochemical nutrition. He is the Director of the Kauai Center for Holistic Medicine and Research in Hawaii and Aloha Ayurvedic Academy
- **Daniel Rhoda** - a certified Ayurvedic practitioner and the award-winning co-author of *‘Eat-Taste-Heal: An Ayurvedic Guidebook and Cookbook for Modern Living*. He is an associate of the Kauai Center for Holistic Medicine Research in Kauai.
- **Dr. Yadu Moharir** - a chemist and leading product formulator and researcher in the nutritional supplement industry. His pioneering work has led to numerous top-selling formulations and innovations within the nutritional field.
- **Dr. David Simon** - a pioneer in the field of integrative medicine. A popular author and teacher, Dr. Simon has dedicated his care to facilitating the integration of complementary and conventional medicine. He is the **medical director of the Chopra Center for Wellbeing**.

After months of working on the formulation, the team emerged with a product that features amalaki with 6 supporting 'actives.' Inspired by a classical Ayurvedic recipe featuring the revered botanical triad of amalaki, turmeric, and tulsi.

This Formulation Is Geared Towards a Worldwide Market

In addition to these powerful ingredients, the team drew upon the wisdom of Traditional Chinese Medicine, due to the highly complementary and adoptogenic properties that the fruits schizandra and jujube share with amalaki.

Lastly, the famed Ayurvedic fruit, haritaki, was added to the blend for its mild detoxifying properties, and ginger for its assistance in helping to digest and assimilate all of the ingredients more effectively.

So the bottom line is that Zrii is an ayurvedic formulation. It's a juice made from wild crafted Amalaki that is used in conjunction with many herbs (a proprietary Ayurveda blend) that work in synergy with one another to give you a unique and very powerful juice.

These other secondary ingredients are also time honored and well-documented by modern research for their numerous healing properties. For example,

Turmeric- improves circulation, digestion, and reduces inflammation

Tulsi- improves digestion and intestinal health

Ginger- improves digestion, absorption, and assimilation

Haritaki- serves as a mild-detoxifying

Schizandra- an excellent "brain tonic"; enhances mental function and memory

Jujube- calms the nerves and serves as a mild rejuvenative

Important Note: Zrii only uses pristine wild-crafted amalaki berries, none of which are grown with chemical pesticides or herbicides or genetically modified ingredients. This factor combined with the ayurvedic blend of specific potent herbs makes Zrii one of the most powerful juices on the market and **NEAR IMPOSSIBLE TO REPLICATE!**

The Zrii juice is backed back by brain, research, star and financial power. All the pieces of the puzzle are in place to take the market by storm. Can you see yourself in this picture

There are literally thousands of home businesses for you to choose from. Of course they all make big promises but not all deliver on those promises. Some are actually downright scams, if you asked me. But we'll leave the FTC to do their jobs.

Now before you choose to join a home business opportunity I'll suggest that you do your own due diligence. It's only common sense. **In fact, these are the critical elements that I look for in any home business opportunity and Zrii passes all with flying colors:**

1. The company must have a unique product. Now if you're promoting a product that could be easily picked up at your local WalMart, then you're trying to do mountain climbing in roller blades. There's no way that you could compete with a chain store with national reach and advertising budgets that could buy your local county.

You want a product that is not available in the stores and you have exclusive right to market. In this way your **competition is minimal** and you're more likely to make a profit. (That's the reason you'll hear those late-night commercials say. "This is NOT available in stores!")

2. The product should be consumable. When you retail a product that gets used up, then the customer must continue to buy the product in order to benefit from its use. If you're just going for the one-time sale, then after you make that sale you cannot make any more money from that customer. When you sell a consumable product this means repeat orders and steadier income.

3. The market should be global. The more people who need this product the more sales you could make. If you're selling purple feathers to hat makers in Millville, Iowa, your limited market means limited income. You need a product that has **wide appeal** and even a global market if possible.

4. The company should have stable leadership and financial backing. Even if you have a great in-demand product and your company leaders are lousy and the financial backing is shaky you can still be left in the dark. There are many companies who went belly up and left their distributors holding the bag. Stable management is the key here.

5. The compensation plan must place money in your pocket fast. If you are working with a 'stingy' compensation plan then it will take longer for you to get into profit and this

"Network marketing has proven itself to be a viable and rewarding source of income, and the challenges could be just right for you. There have been some remarkable examples of success, and those successes have been earned through diligence, enthusiasm and the right product combined with timing." - **Donald Trump**

"I am often asked if network marketing is a pyramid scheme. My reply is that corporations are really pyramid schemes. A corporation has only one person at the top, generally the CEO, and everyone else below. A true network marketing business is the exact opposite of a traditional business model. The network marketing business is designed to bring you to the top not keep you at the bottom. A true network marketing business does not succeed unless it brings people to the top." -**Robert Kiyosaki**

From "Why We Recommend Network Marketing"
Your business Volume 2 Issue 2

lack of financial incentive will dry up your enthusiasm fast. You are doing business to make money, period. So be sure that a **generous compensation plan** is in place and the company is paying its distributors on time.

6. The start-up cost should be affordable. The whole idea of starting a home business is to earn extra income and finally to become financially independent. So you want a business with **low risk** and the strong possibility of **high gain**. If the startup investment is too steep, then it will be more difficult to recruit others into the business. At the same time some initial investment must be expected. There not many businesses you could start with no money.

7. There should be a turn-key marketing system in place. It's no secret that the vast majority of network marketers fail because they don't know how to market. Most small businesses as a matter of fact fail for the very same reason. So the company should have **a system** in place that will take the new recruit step-by-step through a marketing strategy to help grow her business.

(Please note though that most companies fall short here and so you have to join a team that has a great marketing system in place. More on this later.)

Remember I said earlier that you must do your own due diligence? But when you are sure that all these factors are in place, with some dedication and commitment on your part, you can be sure of success.

FAIR WARNING: There are many network marketing companies who try to sell you on the notion that they will do all the work for you. But I'm sure that you are smart enough to see through that type of hype. No wonder these companies give the whole MLM industry such a bad name.

If you're hoping to find a legitimate business that does all the work for you while you bask in the sunshine on some beach resort in Hawaii with cash piling up in your bank account, I also have a piece of the Brooklyn Bridge to sell you!

\$1 TRILLION Industry By 2010 !!!

"Entire industries will rise and fall in response to this anti-ageing, anti-obesity, pro-longevity obsession... With the middle-aging of the boomers, we are beginning to feel the impact of the demographic 'age wave', whose mass and force will ultimately challenge every aspect of our personal, social, financial and political dynamics".
-Dr. Ken Dychtwald,
author of *AgeWave*

According to the Natural Marketing Institute (NMI), most recent statistics show that the functional and fortified foods and beverage industry retail sales for the US alone was **\$79 billion in 2005 representing a growth of 15%**. This was double the growth of the previous year! As people become more concerned about their health in a world that's getting busier and more chaotic each year, health and wellness businesses are exploding.

Wellness is a **\$200 to \$400 billion industry** that is estimated to reach \$1 trillion by 2010 as the baby boomer generation ages and retires. "Baby boomers" are those who were born between 1946 and 1964 and they have the most disposable income of any sector of the economy.

This group is over **90 million strong in both the USA and Canada** and any company who caught this population

wave did well. For example, when the baby boomers were infants, baby food industry saw their heyday. When they were in early childhood, the marketplace responded with toys such as hula hoops, skateboards and tinkertoys in the billions of dollars worth.

Teenage years saw fast food franchises blossoming all geared to this baby boomer crowd, and young adulthood brought out companies such as the *Gap* as fashion preferences changed. **This generation now accounts for over \$1 trillion in annual income!!**

It's not very difficult to see why the wellness industry is already poised to blow off the roof because as baby boomers age they are pursuing the healthier lifestyle ... watching their diets, exercising and looking at alternative and natural preventative health products. And that's where **Zrii** comes in to the rescue. **You're in a unique position to benefit big time from this marketing trend.**

Tell Me More About The Compensation Plan

Here are the highlights of this plan:

- **No complicated plan** with lots of fine print so you need a Harvard business degree to understand. The company returns 50% of total sales to distributors--a hard to match payout in this industry.
- Plan follows the **unilevel with dynamic compression** model. In simple language this means that you can build a wide frontline and maintain your position while maximizing your earnings through 9 levels.
- You can get paid to **infinity** on the unilevel. This is relatively unheard of in a unilevel plan!
- **Fast Start bonuses paid out 3 months in a row!** As a distributor you get up to 40% commissions from all your sign-ups your first month. 30% commissions the next month and 20% for the third month. Everybody knows that if you can keep a distributor in the company for more than 90 days then they will probably stay...this feature does just that!
- **Unilevel Dynamic Compression paid out monthly.** You get paid 4-7% on every level up to 9 levels deep designed to make sure you get the largest possible commission from your organization's effort.
- **Share in the corporate profit.** You could share in the **total company's commissionable revenue** above and beyond your personal organization's sales volume.
- **Zrii Discovery Bonus for exciting trips, prizes and other incentives.** How would you like to go on world class incentive trips filled with relaxation and rejuvenation? Or what about getting your dream car paid for? There will be many more bonuses and incentives to come.

You Can Get In NOW At the **Groundfloor ...**

Can you imagine if you were reading all of this 3 or 4 years into the company? Even then you would have the ability to make tens of thousands of dollars a month. But, what if I were to tell you that you have a chance to be at the very beginning of Zrii...that you can be at the **TOP!**

Look, by now you should have realized that this company is going to the moon. Nobody is turning this opportunity down...and I don't blame them. Because of the overwhelming

response I've had just through "word of mouth" I've decided to only work with those who are aggressive and ambitious.

There are so many people out there with a heart to win and those are the kind of people I want to surround myself with. If you feel that you have a burning desire to win, that you can accomplish your dreams then pay close attention. Because ...

This offer is to you...

The company has not even had a pre-launch! You are hearing about this at the absolute beginning, nobody has even had the product shipped to them. If you have any idea about how network marketing millionaires are made, then you'll understand the incredible opportunity that is stark naked before your eyes right now.

No one can legally promise you zero-risk with any start-up companies, but, in my estimation, the chances of succeeding with Zrii is as good as they come.

Plus, the company has a tycoon who has created billion dollar brands funding it! And the management team is absolutely without question one of the best I've ever seen. With over 100 years of combined network marketing experience, they are equipped to make this the company of the century!

If being at the TOP has always intrigued you...if you like the idea of making a whole lot of money and helping thousands of others do the same while spreading the good news of Amalaki then join the team!

Warning: Those who join this company stand to make a truckload of money, have a lot of fun, help thousands of people, and make hundreds of new friends. If you don't like making new friends, or feel guilty about making too much money or having fun, then this is NOT for you.

A NEW And Quicker Way To Grow Your Business

Experts agree that everyone has at least **two** opportunities in life to create great wealth; the question is: Is this your first or your last?

What I like about the **Zrii** opportunity is that you don't have to "sell" the product because **the product literally sells itself.** So even if you hate face-to-selling, (like 99.9% of the people who live on this planet!) then the **Zrii** opportunity is for you.

Let me explain ...

The **old** way of running a network marketing business was indeed challenging and intimidating. If you were not a born sales person and leader it was hard to build a real business (note I didn't say hobby) out of it. And that's why the vast majority of people didn't even stick around.

But then entered the Internet! Yes, the Internet has literally revolutionized the way you grow your network marketing business. No longer do you have to hassle your family and friends so they start avoiding your calls, because the world is now at your door steps.

And this is the reason why I want to share with you a **marketing system** where you don't even have to talk to a single person if you don't want to. And even if you barely know how to use your email program I want to show you how you can use the Internet to power-charge your business from the comforts of your own home.

As a part of this marketing system you'll get a sales letter similar to this one that you are reading now to use in your recruiting efforts. You'll get lead generator pages, an autoresponder system and step-by-step instructions on how to harness the power of the internet to build your own marketing empire. This same system could be used for your offline marketing as well.

In the **old** way of building your network marketing business you had to depend on your selling personality but with this system you don't have to do any cold-calling, holding meetings or any of that outdated stuff. Using internet marketing strategies to grow your business is the 100% rejection-free way to grow your business fast, and it's the wave of the future.

The bottom line? Here's what *Zrii* can offer you...

- **Immediate Income**
- Financial Independence with Residual Income
- **Quality of Life**
- Setting Your Own Hours
- **No Bosses or Employees**
- A Scientifically Tested, Proven Product
- **Solid Home Business**
- Proven Training and Support Programs

If you're really serious about changing your lifestyle and experience the incredible **rush of seeing those checks rolling in week after week** ... while at the same time you're helping people enjoy optimum health, then **Zrii** is for you.

Why Should I Join With Your Team?

Perhaps you've been presented with the **Zrii** opportunity before and are looking for the best team join. You may also know that a lot of your success in a MLM program depends upon the team that you choose to work with.

Many network marketing recruiters just sign you up and then leave you to swim with the sharks. In other words, you're on your own in trying to build your business. **I think that is a very short-sighted approach.**

I know that your success translates into my success and that's why **I want to give you an online "zallstars.com" prospecting system worth over \$50,000 to help grow your downline.** And that is why I'm really looking for **serious** people to work with. I'll provide you with the training and marketing material that I've had custom-made, just for my team members.

Frankly, once you're prepared to work the plan, then I know that you'll do well because my team will provide all the training that you need to put your organization on the fast track.

So the bottom line is that when you sign up with us you'll get:

- Over \$50,000 worth of marketing material and training
- Personal coaching in our teams conference calls
- **Secrets** to growing your organization without the necessity of talking to even one person. You'll be amazed at this strategy
- Upline support that's second to none.

All I expect from you in return is a **passion and desire** to change your financial future in a huge way, while helping as many people do the same.

NOW Is YOUR Time To Act!

Just consider for a minute the offer that's before you right this minute:

- **You get** to be part of a company with **stable management**, experienced leaders of integrity and a distributor-driven compensation plan.
- **You get** to share with the world a unique product that's proven to work for people for over 5000 thousand years now, and bring good health and wellness to millions.

- **You get** to be part of a **team that's already successful** and wants to hand you the "success formula" on a silver platter and help you reach your financial goals--pay off those nagging debt and take that well-deserved vacation!
- **You get** to be part of a **ground floor opportunity** of a young and explosive company that's poised to take the market by storm. Can you imagine what your life would be like now if you had invested early in *Microsoft*?
- **You get** an **online marketing system** unlike any other mlm company
- **You get** to build your own home business, **living life on your terms** and setting your own goals and experiencing the satisfaction of living life to the fullest

The only question is: Do you have the **desire** to make a definite change in your life by coming onboard now? While you're still "thinking about it" thousands are catching the vision and signing up everyday.

Can you afford to allow an opportunity like this to pass you by? This wealth-building opportunity isn't just knocking, but it's breaking down your door! Are you ready to finally earn what you're really worth and deserve?
